ABSTRACT

OF THE

NET REVENUE AND EXPENDITURE

OF

South Australia

FOR THE YEAR

1843.

Insert under general heads the Receipts and Disbursements, so as to exhibit distinctly and separately the Sources from which the Receipts have been derived, on the one hand, whether from the Resources of the Colony, from Parliamentary Grants, or from Her Majesty's Treasury, and, on the other, the Total Expense incurred by each Department of the Government; distinguishing the Ordinary Established Charge of the several Offices from their Contingent and Accidental Expenses.

Such Observations as may be sufficient to explain the causes, and point to the remedy of any deficiency in the Revenue, or excess of the Expenditure, must form the subject of a Special Report to accompany the Blue Book when transmitted to the Secretary of State.

MENT OF THE REVENUE.

Increase in Pounds Sterling. £.	s.	d.	Decrease in Pounds Sterling. £.	s.	d.	Cause of Increase or Decrease.
						The Decrease of Revenue and of Receipts in aid of Revenue in 1813 as compared with the preceding year, is £39.202.9.10, but upon an examination of the several items, it will be seen that this decrease has been occasioned chiefly by the diminished Government expenditure having rendered it unnecessary for the Governor to draw so largely on the British Treasury as heretofore. The decrease due to this cause alone amounts to £20.763.4.8. Again, in the receipts for 1812 was included the sum of £17.008.3.0 for Land Sales, from which should be deducted the nominal sum of £12.000 which represents 12.000 acres of land which were granted to the South Australian Company in payment of the Port Head. The fact is, that the actual Local Revenue derived from Colonial sources, (exclusive of Land Sales) amounted in the year 1812 to £25.020.17.8; whilst that for 1813 was £24.779.1.6, so that the revenue for 1812 only exceeded that of the following year by £241.16.2

The present system is to allow masters of vessels, or other persons, to raise ballast for themselves under the directions of the Harbour Master, the Government making no charge whatever. OF THE COLONIAL EXPENDITURE.

						The Estimates of Expenditure for 1843 were subject early in the year to a complete revision, in order, with a proper regard to the efficiency of the Public Service, to bring the Ordinary Expenditure within the limits of the ordinary Revenue.

			174	14	6	It will be seen from this Comparative Statement that a general reduction in the Expenditure of the different Departments of the Civil Establishment was effected during the year 1843. The forage allowance of £70 per annum which was allowed to several heads of Departments, has either been disallowed or commuted for a fixed Salary of £30; When an officer was paid partly by Fees, the practice has been discontinued, and an increase of salary substituted in lieu of the amount so received, so that the total decrease of Expenditure is greater than it really appears.

No Revenue was collected during the year 1843, by local taxation, except in the Municipality of Adelaide, where an assessment of ninepence in the pound was partially levied for defraying the expenses of the Corporation. But great difficulties have been experienced in the working of the Act under which the Corporation was constituted, and legal disabilities have arisen to disqualify the members of the Corporation, so that the Act has, at length, fallen into disuse, and the Corporation for all the purposes of municipal Government, no longer exists.

(a) The system of allowing Fees to be retained as perquisites in addition to the Salaries of public officers was entirely put an end to on the 1st Jany 1843. The average aggregate emolument received by the Sheriff from Fees & Salary in former years was estimated at about £350, and as this amount did not appear to be in excess of a reasonable remuneration for the services rendered and liabilities incurred by that officer in the discharge of his official duties, the sum of £350 was consolidated in the form of a fixed salary.
